Hi Laura-

[REDACTED]

Now, down to business. I forgot to mention to you that in OK, there are 2 sets of WQS. One is made by the Water Resources Board (WRB) and the other by the ODEQ. We typically go by the ODEQ one because the ODEQ will confirm items from the WRB. It looks as though you have the correct OK standards but I believe the one you have may be from the WRB. So I will send you the OK WQSs and IPs from both the WRB and ODEQ. I know its confusing (try writing a permit in this state) but I hope this answers some of your questions.

[REDACTED] Call me if you need clarification. I'm working from home today.

Paul,

Hi. [REDACTED]

Questions please call me first – this work per my branch is still in germinating stage.

First I have to find on state websites or through Regional colleagues – [REDACTED] .

Attached is the WQS I have here for OK but I don't know if they are the latest and I don't have OK IPs that I can find here.

[REDACTED]

Thanks. I am in tomorrow and Thursday and at home Friday CWD. Back in Monday.

Laura
